COURSE FILE

Course Code : CS411

Title of the Course : Industrial Management Engineering

Year & semester : B.Tech. (Semester VII) – [Final Year]

Periods per Week : THEORY-4

Nature of the Course : Core Competency

Name of Instructors : Dr.M.Vijaya

Designation : Associate Professor

E-mail : murkondavijaya@gmail.com

1. Vision & Mission of the Institute

Vision of the Institute:

To develop integrated manpower with the right attitude, possessing knowledge and skills, required to make an honorable living and contribute to the socioeconomic development and welfare of the society.

Mission of the Institute:

1. To produce globally agile graduates with value orientation, professional competency, critical and creative thinking, and lifelong learning.
2. To enrich the society through education and research by generating proficient manpower, capable of contributing to the needs of the industry.
3. To provide a conducive learning environment, encompassing knowledge, communication, and soft skills that enable students to transform themselves into global leaders.

2. Vision & Mission of the Department

Vision of the Department :

The Department of Electronics & Communication Engineering endeavours to develop high quality, technically competent and socially responsible engineers.

Mission of the Department :

1. To bring out competent Electronics and Communication Engineers and to achieve excellence in imparting technical social skills & attitude for continuous learning.
2. To provide good learning environment for young engineers towards research and Industrial needs.
3. To mould the students capable of providing leadership for betterment of the society and country

3. Programme Educational Objectives:

PEO1	Effectively apply mathematics, science and engineering methodologies for analysis, design and implementation of software solutions for real world problems.
PEO2	Explore breadth and depth of computer science to adopt emerging tools and technologies for rapidly changing computing needs of the society for employability or for pursuing higher studies.
PEO3	Demonstrate knowledge and understanding of professional responsibilities and function in multi-disciplinary environments to have successful professional career.

4. Programme Outcomes:

PO1	Engineering knowledge: Apply the knowledge of mathematics, science, engineering fundamentals, and an engineering specialization to the solution of complex engineering problems.
PO2	Problem analysis: Identify formulate, review research literature, and analyse complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences, and engineering sciences.
PO3	Design/development of solutions: Design solutions for complex engineering problems and design system components or processes that meet the specified needs with appropriate consideration for the public health and safety, and the cultural, societal, and environmental considerations.
PO4	Conduct investigations of complex problems: Use research-based knowledge and research methods including design of experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions.
PO5	Modern tool usage: Create, select, and apply appropriate techniques, resources, and modern engineering and IT tools including predication and modelling to complex engineering activities with an understanding of the limitations.
PO6	The engineer and society: Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to the professional engineering practice.
PO7	Environment and sustainability: Understand the impact of the professional engineering solutions in societal and environmental contexts, and demonstrate the knowledge of, and need for sustainable development.
PO8	Ethics: Apply ethical principles and commit to professional ethics and responsibilities and norms of the engineering practice.
PO9	Individual and team work: Function effectively as an individual, and as a member or leader in diverse teams, and in multidisciplinary settings.

PO10	Communication: Communicate effectively on complex engineering activities with the engineering community and with society at large, such as, being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions.
PO11	Project management and finance: Demonstrate knowledge and understanding of the engineering and management principles and apply these to one's own work, as a member and leader in a team, to manage projects and in multidisciplinary environments.
PO12	Life-long learning: Recognize the need for, and have the preparation and ability to engage in independent and life-long learning in the broadest context of technological changes.

5. Programme Specific Outcomes:

PSO1	Domain knowledge: Acquire knowledge of computer hardware and software functionality required for efficient data processing.
PSO2	Problem solving skills: Develop skills to analyze data, identify suitable data structures, formulate effective algorithms and create solutions for real-world problems.
PSO3	Computing Paradigms: Possess knowledge of paradigm shifts in computing for context aware applicability.

6. Course Outcomes:

After completion of the course, the students will be able to

1. To gain insight into contemporary issues in management and business organization.
2. Ability to identify, analyze, and interpret concepts of time value of money and depreciation.
3. An understand the impact of knowledge on entrepreneurship to enable the student to meet the needs of industry.
4. Recognize of the needs and ability to MSMEs and support agencies.

7. Class Time Table & Faculty Time Table

Day	Time
Tuesday	12:00 to 1:00 p.m
Friday	08:00 to 10:00 a.m
Saturday	12:00 to 1:00 p.m

8. Course Syllabus:

UNIT I

[CO: 1] (10)

Management and Business Organization:

Text Book - 1

Management concept-Managerial and operational function as of management-Scientific management-Job Design-Job description and job specification. Sole Proprietorship, Partnership Firm, Limited Liability Partnership (LLP), Joint Stock Company, One Person Company (OPC), Private Company & Public Limited Company. Company Form of Organization, Co-Operatives.

UNIT II

[CO: 2] (10)

Time values of money and depreciation:

Text Book - 1, 2

Simple interest-Compound interest-Present worth factors. Future worth factors-Depreciation Concept-Straight-line method of depreciation-Diminishing method of depreciation-Sum of the year digits method of depreciation etc along with problems.

UNIT III

[CO: 3] (10)

Entrepreneur and Entrepreneurship-

Text Book - 3, 4

Concept of Entrepreneur ,Characteristics of an Entrepreneur, Distinction between an Entrepreneur and Intrapreneur and a Manager-Functions of an Entrepreneur-Types of entrepreneurs-Recent Trends of Women Entrepreneurship-Rural Entrepreneurship-Entrepreneurial process -Growth of Entrepreneurship in India

UNIT IV

[CO: 4] (10)

MSME and Support Agencies:

Text Book - 3, 4

Meaning of MSME-Definitions of MSME, Characteristics of MSME-Relationships of MSME-Certificate of MSME - Make in India concept of MSME-Commercial Banks- financial institutions-(KVIC) Khadi and Village Industries Commission- (SIDO) Small Industries Development Corporation -(NSIC) National Small Industries Corporation-(NPC) National productivity council-(DIC) District Industries Centre-(SFC) State Financial corporation.

Learning Resources:

Text Book(S):

1. K.K. Ahuja, Industrial Management, Vol. I & II, Dhanpat Rai, 1978.
2. E. Paul DeGarmo, John R. Chanda, William G. Sullivan, Engineering Economy, Macmillan Publishing, 1979.
3. Poornima M. Charantimath, Entrepreneurship Development – Small Business Environment, Pearson Education.
4. Shivganesha Bhargava, Entrepreneurial Management, Sage Publications, 2008.

Reference Book(S):

- a. Gary Dessler, Human Resource Management, 11th Edition, 2008.
- b. Heinz Weirich & Harold Koontz, Management, 10th Edition, TMH, 2004.

Course Handout

B.Tech. Semester - II [Year] (R24) :: 2025-26

Subject Code	: CS 411 (HSEL1)				
Subject Name	: INDUSTRIAL MANAGEMENT & ENTREPRENEURSHIP				
L-T-P Structure	:	4	-	-	Course Credits : 3
Course Instructor	: Dr.M.VIJAYA				
Course Co-ordinator	: Dr.C.Srinivas				
Prerequisites:	Basic Knowledge of Management Principles				

Programme Educational Objectives:

Upon graduation, the students of the program will.

PEO I: Effectively apply mathematics, science and engineering methodologies for analysis, design and implementation of software solutions for real world problems.

PEO II: Explore breadth and depth of computer science to adopt emerging tools and technologies for rapidly changing computing needs of the society for employability or for pursuing higher studies.

PEO III: Demonstrate knowledge and understanding of professional responsibilities and function in multi-disciplinary environments to have successful professional career.

Programme Outcomes:

Engineering Graduates will be able to:

PO 1: Engineering Knowledge: Apply the knowledge of mathematics, science, engineering fundamentals, and an engineering specialization to the solution of complex engineering problems.

PO 2: Problem analysis: Identify formulate, review research literature, and analyze complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences, and engineering sciences.

PO 3: Design/development of solutions: Design solutions for complex engineering problems and design system components or processes that meet the specified needs with appropriate consideration for the public health and safety, and the societal, and environmental considerations.

PO 4: Conduct Investigations of complex problems: Use research based knowledge and research methods including design of experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions.

PO 5: Modern tool usage: Create, select, and apply appropriate techniques, resources, and modern engineering and IT tools including predication and modelling to complex engineering activities with an understanding of the limitations.

PO 6: The engineer and society: Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to the professional engineering practice.

- PO 7: Environment and sustainability: Understand the impact of the professional engineering solutions in societal and environmental contexts, and demonstrate the knowledge of, and need for sustainable development.
- PO 8: Ethics: Apply ethical principles and commit to professional ethics and responsibilities and norms of the engineering practice.
- PO 9: Individual and team work: Function effectively as an individual, and as a member or leader in diverse teams, and in multidisciplinary settings.
- PO 10: Communication: Communicate effectively on complex engineering activities with the engineering community and with society at large, such as, being able to comprehend and write effective reports and design documentation, make presentations, and give and receive clear instructions.
- PO 11: Project management and finance: Demonstrate knowledge and understanding of the engineering and management principles and apply these to one's own work, as a member and leader in a team, to manage projects and in multi-disciplinary environments.
- PO 12: Lifelong learning: Recognize the need for, and have the preparation and ability to engage in independent and life-long learning in the broadest context of technological changes.

Programme Outcomes:

Course Objectives:

- To enable students to demonstrate a thorough working knowledge of Management and Organizations.
- To alert students to regular business activity on Time Value of Money and Depreciation.
- To motivate students on Entrepreneurial perspectives in current business environments.
- To enable students to understand the MSME sector and motivate the startup of MSMEs and support agencies.

Course Description with syllabus:

This course introduces the concepts of Industrial Management and Entrepreneurship, combining organizational principles, financial evaluation techniques, and entrepreneurial processes. It enables students to understand management structures, time value of money, and depreciation while fostering entrepreneurial skills, particularly in the context of MSMEs and Indian business ecosystems. Students will learn about various forms of business organizations, entrepreneurship models, financial evaluation methods, and the institutional support available to startups in India.

The course emphasizes a practical and contemporary approach, enabling students to connect managerial and entrepreneurial theories with real-world practices.

Course Content

UNIT-1

CO1 (12)

MANAGEMENT AND BUSINESS ORGANISATION: Management concept-Managerial and operational function as of management-Scientific management-Job Design-Job description and job specification. Sole Proprietorship, Partnership Firm, Limited Liability Partnership (LLP), Joint Stock Company, One Person Company (OPC), Private Company & Public Limited Company Form of Organization, Co-Operatives.

UNIT-2**CO2 (12)**

TIME VALUE OF MONEY AND DEPRECIATION: Simple interest -Compound interest-Present worth factors- Future worth factors-Depreciation Concept-Straight-line method of depreciation-Diminishing method of depreciation-Sum of the year digits method of depreciation etc. along with problems.

UNIT-3**CO3 (12)**

ENTREPRENEUR AND ENTREPRENEURSHIP-Concept of Entrepreneur-Characteristics of an Entrepreneur- Distinction between an Entrepreneur and Intrapreneur and a Manager — Functions of an Entrepreneur— Types of entrepreneurs- Recent Trends of Women Entrepreneurship — Rural Entrepreneurship- Entrepreneurial process — Growth of Entrepreneurship in India

UNIT-4**CO4 (12)**

MSME AND SUPPORT AGENCIES: MEANING OF MSME-Definitions of MSME, Characteristics of MSME-Relationships of MSME- Certificate of MSME —Make in India concept of MSME Commercial Banks- financial institutions — (KVIC) Khadi and Village Industries Commission- (SIDO) Small Industries Development Corporation — (NSIC) National Small Industries Corporation- (NPC) National productivity council- (DIC) District Industries Centre- (SFC) State Financial Corporation.

Course Outcomes

After completion of the course, the students will be able to

1. Gain insight into contemporary issues in management and business organization.
2. Identify, analyze, and interpret concepts of time value of money and depreciation.
3. Understand the impact of entrepreneurship in industry and distinguish various entrepreneurial roles.
4. Recognize the needs of MSMEs and evaluate the role of support agencies in promoting them.

Academic Calendar for corresponding year:

Regulation	Class	Sem / Year	Class Work Start Date	First Mid Start Date	Last Working Day	Second Mid Start Date	Sem End Exams Start Date
R20	IV Year	VII	16-JUN-2025	18-AUG-2025	25-OCT-2025	27-OCT-2025	10-NOV-2025

Lecture Hours (as per timetable):

Day	Time
Monday	8.00-10.00 a.m
Wednesday	12.00-2.00 p.m
Thursday	10.00-11.00 a.m

Lesson Plan:

Class No.	Topics to be covered	No of Lecture /Tutorial Hours	Date of completion of Class	Teaching Learning Method	Learning Outcome (By the end of this topic, students will be able to)	Text Book followed	Remarks
1.	Introduction to Management concept, scope of management	2		TL1	Understand the concept and scope of management	1	
2.	Managerial & operational functions of management	1		TL2	Identify managerial and operational functions	1	
3.	management and scientific management principles	2		TL2	Explain principles of management and scientific management	1	
4.	Forms of organization: Sole proprietorship	1		TL2	Understand sole proprietorship features	1	
5.	Job design - description	2		TL2	Differentiate job description vs job design	1	
6.	job specification	1		TL2	Explain job specification	1	

Class No.	Topics to be covered	No of Lecture /Tutorial Hours	Date of completion of Class	Teaching Learning Method	Learning Outcome (By the end of this topic, students will be able to)	Text Book followed	Remarks
7.	Forms: Partnership firm	2		TL1	Describe characteristics of partnership firm	1	
8.	Forms: Limited Liability Partnership (LLP)	1		TL1	Explain LLP and its advantages	1	
9.	Forms: Joint stock company	2		TL2	Understand features of joint stock company	1	
10.	Forms: One Person Company (OPC)	1		TL2	Explain the concept of OPC	1	
11.	Forms: Private and public company	2		TL2	Understand features of private and public company	1	
12.	Examples of private and public company	1		TL6	Differentiate private vs public companies	1	
13.	Co-operatives – and features	1		TL2	Explain cooperative form of business	1	
14.	Introduction to Financial Management & Time value of money – simple interest	2		TL1	Solve problems on simple interest	2	
15.	Time value – compound interest	1		TL1	Solve problems on compound interest	2	
16.	Present worth factors	1		TL1	Apply present worth factors in evaluation	2	
17.	Future worth factors	2		TL1	Apply future worth factors in evaluation	2	
18.	Depreciation concept	1		TL1	Explain concept of depreciation	2	
19.	Straight line method of depreciation	1		TL1	Solve problems on straight line method	2	
20.	Diminishing balance method	2		TL1	Solve problems on diminishing balance method	2	
21.	Sum of the years digits method	1		TL1	Apply sum of the years digits method	2	
22.	Other methods overview	1		TL1	Recognize different depreciation methods	2	

Class No.	Topics to be covered	No of Lecture /Tutorial Hours	Date of completion of Class	Teaching Learning Method	Learning Outcome (By the end of this topic, students will be able to)	Text Book followed	Remarks
23.	Concept of entrepreneur	1		TL1	Understand concept of entrepreneur	3	
24.	Characteristics of an entrepreneur and role	2		TL1	Identify key characteristics of entrepreneurs	3	
25.	Competencies of an entrepreneur	1		TL1	Identify key competencies of entrepreneurs	3	
26.	Activity on characteristics	2		TL6	team	-	
27.	Entrepreneur vs manager	1		TL1	Differentiate entrepreneur, and manager	3	
28.	Entrepreneur vs intrapreneur	1		TL1	Differentiate entrepreneur and intrapreneur	3	
29.	Functions of an entrepreneur	2		TL1	Explain functions of entrepreneurs	3	
30.	Types of entrepreneurs	2		TL1	Classify types of entrepreneurs	3	
31.	Types of entrepreneurs	1		TL1	Classify types of entrepreneurs	3	
32.	Women entrepreneurship	1		TL1	Understand role of women in entrepreneurship	3	
33.	Women entrepreneurship – trends	2		TL1	Understand role of women in entrepreneurship	3	
34.	Rural entrepreneurship – significance	1		TL1	Recognize importance of rural entrepreneurship	3	
35.	Entrepreneurial process	1		TL1	Explain steps in entrepreneurial process	3	
36.	Growth of entrepreneurship in India	2		TL1	Trace growth of entrepreneurship in India	3	
37.	MSME – meaning & definition	1		TL1	Define and explain MSME	4	
38.	MSME – characteristics	1		TL2	Understand characteristics of MSME	4	
39.	MSME – relationships	2		TL2	Explain relationships in MSME sector	4	
40.	MSME certification process	1		TL2	Understand certification for MSME	4	

Class No.	Topics to be covered	No of Lecture /Tutorial Hours	Date of completion of Class	Teaching Learning Method	Learning Outcome (By the end of this topic, students will be able to)	Text Book followed	Remarks
41.	Make in India concept & MSME	2		TL2	Link MSME with Make in India Initiative	4	
42.	Support agencies – commercial banks & FIs	1		TL2	Recognize role of banks and FIs for MSME	4	
43.	KVIC and SIDO – functions	1		TL2	Explain role of KVIC and SIDO	4	
44.	NSIC – functions	2		TL2	Explain role of NSIC	4	
45.	NPC – functions	1		TL2	Explain role of NPC	4	
46.	DIC – functions	1		TL2	Explain role of DIC	4	
47.	SFC – functions	2		TL2	Explain role of SFC	4	
48.	Revision & problem discussion	1		TL1	Review and reinforce course learning	1, 2, 3, 4	
49.	Revision / Case study discussion	2		TL1	Consolidate and apply learning	1, 2, 3, 4	
50.	Revision / Case study discussion	1		TL1	Consolidate and apply learning	1, 2, 3, 4	
51.	Revision / Case study discussion	1		TL1	Consolidate and apply learning	1, 2, 3, 4	
52.	Revision / Case study discussion	2		TL1	Consolidate and apply learning	1, 2, 3, 4	

Total Lecture Hours 73
Total Tutorials -
Grand Total hours 73

Teaching Learning Method(s)

1. Chalk and Talk
2. PPT
3. Tutorial
4. Demonstration (Lab/Field Visit)
5. ICT (NPTEL/Swayam Prabha/MOOCs)
6. Group Discussion/Project

Assessment Plan:

Assessment	Date	Duration	Mode
First Mid-term Examination	18.08.2025	135 Minutes	Paper Based
Second Mid-term Examination	27.10.2025		
Quiz I	11.08.2025	15 Minutes	online quiz
Quiz II	20.10.2025		
Semester End Examination	10.11.2025	180 Minutes	Paper Based

Class Decorum:

1. To empower students who are interested in learning, it is a requirement that everyone maintains silence when the class is in session.
2. No use of mobile phone is allowed in the class. Use of mobile phone in the class will be dealt within accordance with the Code of Student Conduct.
